Measuring Guide

To ensure a perfect fit, make sure your page scaling is set to 'none' before printing this page

Important!

For an accurate fit, please read carefully:

- Measure feet with socks on. Place form on hard surface. While standing, place heel where directed.
- Always measure both feet and order the shoe that fits the larger of the two.

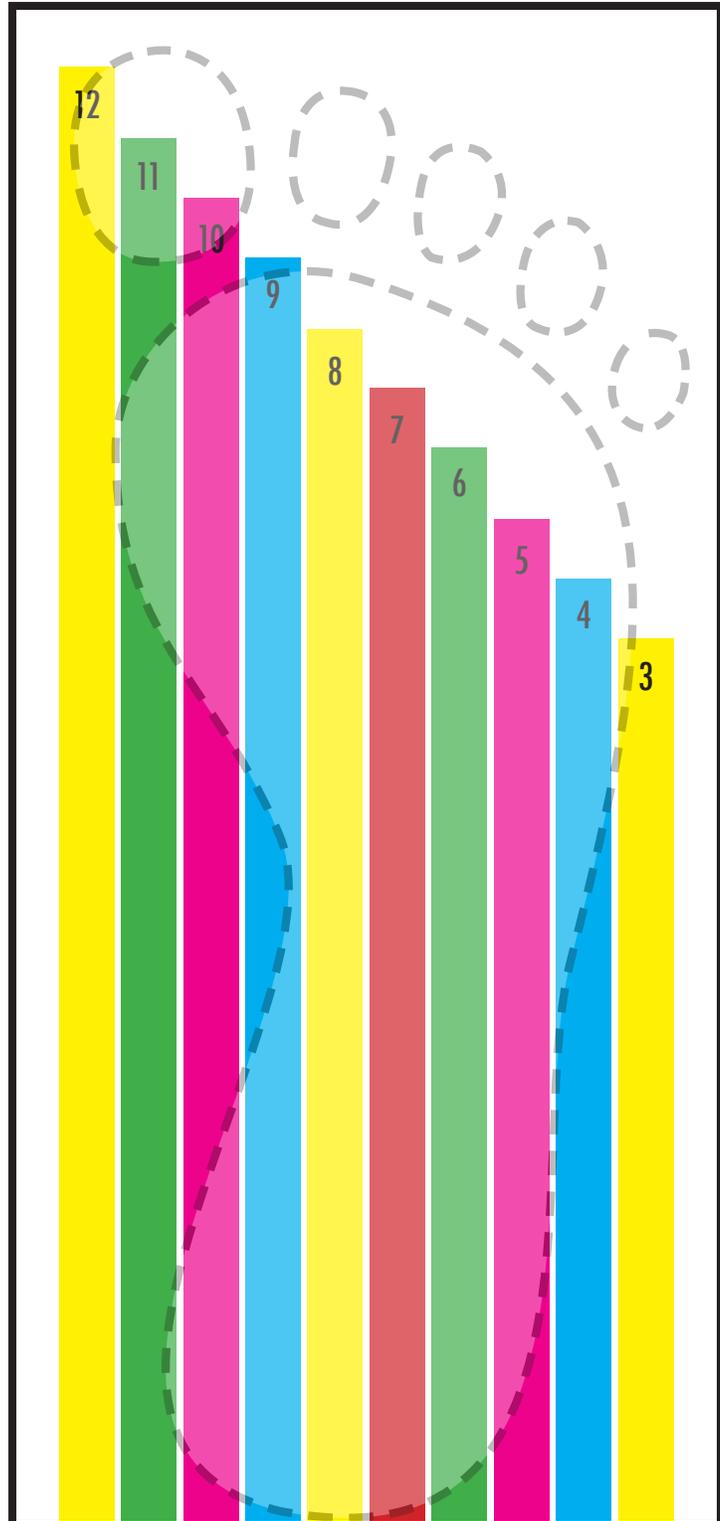

Accuracy check:

Before using, measure the boxed footprint with a ruler at the check line (shown far right); it should be 8 inches from end to end.

Be sure to compare your measurements to the full foot length measurements provided on the following page.

**kids feet grow fast,
measure every time you order!**

place heel here

To be sure your printout is correct, the box should measure 8 inches.

kids feet grow fast,
measure every time you order!

Sizing Chart

Full foot length measurement	Size
7 5/8"	12
7 1/4"	11
6 15/16"	10
6 5/8"	9
6 1/4"	8

Full foot length measurement	Size
5 15/16"	7
5 5/8"	6
5 1/4"	5
4 15/16"	4
4 5/8"	3

To ensure an accurate fit, please reference both the sizing chart and the measuring guide before ordering your pair of SureStep shoes.
